

DON'T LET YOUR WORN DOWN TIRES CAUSE AN ACCIDENT

New Tires Lower Your Risk of Crashing in Winter Weather

The Problem: • 596 people died in tire-related crashes in 2014. About 19,000 Americans are injured every year in tire related crashes. About 600 people die every year from those injuries, according to the NTSB . • Many of those crashes were caused by poor tire maintenance, including failure to maintain proper inflation, check for adequate tread, monitor for damage, or have repairs made properly.
